Joël van der Beek

Econoom & strategisch consultant

Profiel

Joël van der Beek heeft Algemene Economie gestudeerd aan de Erasmus Universiteit Rotterdam. Hij is gespecialiseerd in kwantitatief economisch/strategisch onderzoek.

Joël beschikt over ruime onderzoekservaring op het terrein van beleid en strategie, scenario analyse en business cases. Economie is de basis van zijn benadering. Optimale benutting van strategische potentieel vergt echter meer dan een economische visie. Hij doorgroeit en begrijpt maatschappelijke context en politiek-bestuurlijke ontwikkelingen. Hij heeft de kennis en ervaring in huis om aan deze geïntegreerde visie gestalte te geven.

Joël publiceerde onder andere over transporteconomie, railinfrastructuur en beprijzing van klimaat risico.

Werkervaring

Sinds 2005 EconoVision, Rotterdam/Doorn
Econoom/strateeg
& sinds 2013 EconoLytics, New Delhi/Doorn
Directeur & medeoprichter

Projectervaring (selectie):

Beleidsvorming:

Nederlands spoorbeleid • Nederlands nationaal zeevaartbeleid • Nederlands beleid regionale luchthavens • Havenontwikkeling in ASEAN • Econometrisch model regionale integratie Golf (GCC)

Monitoring en Evaluatie:

Wet Luchtvaart/ Schipholwet • Multilaterale Financiering • Vrijhandelsgebieden in Litouwen

Financieel economische impact analyse en data analyse:

MKBA 'groene' spoorterminal • MER-studie havenontwikkeling • Economische waarde openbaar vervoer • Waardering en prioritering van spoorvervoer • Cash flow analyse en financieel-economische haalbaarheid van infrastructuur

projecten in Nederland, Kaapverdië, Nigeria, Ivoorkust, Duitsland, Ethiopië, Marokko, Bosnië-Herzegovina

Ontwerp van beheer en exploitatie modellen:

Beheer en concessie structuren spoorinfrastructuur, lease wagenpark, bus, tram, metro en locomotief vloten

- Project automatische treinbesturing
- Contractering en beprijzing Incident Management Rijkswaterstaat
- Spoor gebruiksvergoeding
- Tolheffing en PPP in Guyana

Business cases en Financieel ontwerp:

M55 metroverbinding Amsterdam - Almere • New Demerara Harbour Bridge, Georgetown Guyana • Veerdienst Lake Tana, Ethiopië • Cruise- / vrachthaven, St Lucia • Ontwikkeling van online marktplaats voor data analisten

Economische advocatuur:

Mededinging, marktstructuur, prijsstelling

Visie vorming en Master Planning:

Visie 2020 voor Rijkswaterstaat • Den Haag Infrastructuur Master Plan • National Port Master Plan voor havens Mexico • Ruimtelijk-economische visie Schipholregio

2004 - 2005: Atos Consulting (voorheen KPMG), Utrecht
Senior business consultant

Selection of Project References (*in English*)

- Port of Castries, Feasibility Study and Re-Design** (Saint Lucia, for Saint Lucia Air and Sea Ports Authority, 2018-2019) The project includes the technical, economic and financial project design: master plan, technical design, traffic forecasts, investment costs, cash flow analysis, cost benefit analysis, the financing options i.e. PPP) of turning a general port into a separated cruise port and a cargo port.
- Planning of National Transport Infrastructure in the Islamic Countries, Research / Publication** (Turkey-OIC, Organization of the Islamic Cooperation – COMCEC, 2017-2018) See publications.
- New Demerara Harbour Bridge, Feasibility Study and Design** (Guyana, for Ministry of Public Infrastructure of Guyana, 2017) Design of the new river crossing, including identification of location and configuration, traffic forecasts, investment costs, toll fee structure, financing options (i.e. PPP). Also including the environmental impact, the business case, cash flow analysis and the economic benefit of the proposed solutions.
- Rail Cargo Traffic, Optimizing Capacity Use** (Netherlands, ProRail, 2017) Setting up of an assessment framework and a mode of operation to prioritise between cargo trains in case of shortages in capacity on the rail infrastructure, and to incorporate this procedure in the processes of maintenance and handling of disturbances.
- Holland Rail Terminal, Feasibility and Risk Analysis** (Netherlands, Municipality of Lansingerland, 2016-2017) Feasibility study, cost benefit analysis and risk analysis for a new rail cargo terminal in the Rotterdam Region.
- Transnational Transport Corridors in the OIC Member States, Research / Publication** (Turkey-OIC, Organization of the Islamic Cooperation – COMCEC, 2016-2017) See publications.
- Architecture of Peacekeeping Missions at the 15th Venice Architecture Biennale, Research / International Exhibition** (Mali/ Italy, UN Multidimensional Integrated Stabilization Mission in Mali (MINUSMA), 2016) La Biennale di Venezia - BLUE: Architecture of UN Peacekeeping Missions at the Dutch Pavilion at the 15th Venice Architecture Biennale. Joël contributed with 'A speculative financial and socio-economic model for evaluating and enhancing international peacekeeping missions' to this research by Malkit Shoshan.
- Infrastructure Track Access Charge, Corporate Litigation** (Germany/Netherlands, Deutsche Bahn Schenker, 2016) Economic advocacy regarding railway access charges for this multinational logistics company.
- Automated driving and shunting of railway locomotives, project management** (Belgium/ Germany, Bosch Industries, Infrabel, B Logistics, 2016) Start up of SPV in view of an R&D project in automated driving.
- Mindelo Dedicated Cruise Ship Terminal, Business Case and Feasibility Analysis** (Cape Verde, Ministry of Infrastructure Transport and Telecomm / Cape Verde Port Authority, 2011-15) Maintain and Develop Cape Verde as an Attractive Cruise Destination by Investing in the Development of a Dedicated Cruise Ship Terminal and Auxiliary Facilities as Part of Cape Verde. Joël is responsible for the ex ante evaluation, including the socio economic elements of the EISA.
- Expansion and Modernization of the Lake Tana Transport Infrastructure, Business Case, Financing Plan** (Ethiopia, Ethiopia Ministry of Transport - Lake Tana Transport Enterprise, 2009-2016) Expansion and Modernization of the Lake Tana Transport Infrastructure; For the Ethiopian Ministry of Transportation Joël has set up a business plan and a financing structure of ferry services on Lake Tana. He analysed the economic and social effects (ex ante evaluation, EISA) of the expansion of ferry services on Lake Tana.
- Dry dock, Business Case** (Nigeria, Nestoil Ltd., 2014) Financing of a dry dock. For one of Nigeria's largest EPC firms, Joël has prepared a business case to make its investments bankable. With this investment Nestoil is able to streamline its docking activities and meet its objectives for safe working conditions, more competitive prices, shorter lead times, high quality craftsmanship and overall reliability in client service.
- Construction and maintenance of Rail Infrastructure, Procurement and Contracting** (Austria, Swietelsky, 2013-14) Optimising procurement contracts in construction and maintenance of rail infrastructure.
- Colleges of Excellence Company, Member of Bid Team** (Kingdom of Saudi Arabia, CINOP/Colleges of Excellence Company ("CoE"), 2013) CINOP won the concession to operate three TVET colleges (capacity 6000 students) in the Kingdom of Saudi Arabia. Joël played a key role in the Bid Team, by designing, pricing and developing the business case of the three colleges.
- Calibration of Infra Track Access Charge** (Belgium, Infrabel, 2012) Evaluation of infra charging structure and design of a new and robust tariff structure. Infrabel, the provider of rail infrastructure in Belgium has invited Joël to evaluate and improve its model for the pricing of infra charging. Joël has assessed the integral tariff structure of Infrabel. We have also laid the basis for a new and optimized tariff structure. This service has enabled Infrabel to fulfil its tasks more appropriately, efficiently and effectively.
- Heavy Rail Concession, Due Diligence** (Netherlands, Province of Gelderland / Connexxion, 2012)
- Design of Metro connection Amsterdam – Almere, Alignment and Business Case** (Netherlands, Metro operating company Amsterdam Almere, 2011) Alignment and business case study for new Metro line between Amsterdam and Almere. This project is a study to connect Almere and Amsterdam with a new metro line. Joël's role was to prepare the business case so ensure a limited claim on the PPP structured investment budgets, the financial sustainability and a socio-economic optimization. His responsibilities included the tariff structure and the maximization of total revenue.
